which can be kept at full or low heat for a short or long time. Four quarts of oil will give a glowing heat for nine hours, without smoke or smell.

An indicator always shows the amount of oil in the font. Filler-cap does not screw on; but is put in like a cork in a bottle, and is attached by a chain and cannot get lost.

An automatic-locking flame spreader prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that it can be cleaned in an instant. The burner body or gallery cannot become wedged, and can be unscrewed in an instant for rewicking. Finished in japan or nickel, strong, durable, wellmade, built for service, and yet light and ornamental. Has a cool handle.
